

AN INDUSTRY LEADER FOR OVER FIFTY YEARS

Since 1957, Service Stampings Incorporated has been a leading supplier of short- and medium-run metal stamping services used within the electrical, transportation, and numerous other industries worldwide. Managed by experienced industry professionals, the company continually expands its capabilities and services through ongoing technology investments, process improvements, and personnel training.

THE RIGHT PART – DESIGNED, MANUFACTURED, AND DELIVERED ON TIME, EVERY TIME

Our purpose remains the same as it was when we were founded over 50 years ago – to be the *best stamping supplier in the market*. The company provides a complete suite of services designed to make sure you receive the best possible part for your project quickly, easily, and on-time including:

- Pre-Order Project Planning and Consultation
- Expert-Level Engineering Design Assistance to Reduce Part Cost
- Tool & Die Department Featuring the Latest, Advanced Technologies
- Manufacturing Using State-of-the-Art Equipment and Highly-Trained Personnel
- Assembly & Finishing Services Required for Part Completion
- Customer Service to Make Sure Each Order is Correct and Delivered On Time
- Quality Control to Assure Specifications and Tolerances are Met and Exceeded

THE SERVICE STAMPINGS DIFFERENCE – QUALITY PARTS, DELIVERY, AND COMPETITIVE PRICING THROUGH VALUE ENGINEERING AND OPERATIONAL EXCELLENCE

The combination of value engineering and operational excellence is the core of our business. It's how we provide value in each order from initial consultation and estimating through manufacturing and delivery. The experience gained from more than fifty years in sales, support, and delivery of stamping services assures each part has been designed, manufactured, and delivered to best meet your project requirements.
